"GREAT FURNITURE IS LIKE GREAT PEOPLE. IT'S BUILT FROM THE INSIDE OUT."
-Johnny Tipton

OUR HISTORY

Although the company's name has evolved over the years, its core business has remained steadfast. Johnny Tipton began selling furniture for student housing in the early 1970s before deciding to branch out on his own. In 1992, he founded Southeastern Contract, enlisting his son, Brian Tipton, to assist with sales. SEC operated as an independent representative with various furniture lines, but ultimately developed it's own brand of purpose built furniture for the industry that Johnny Tipton served for several decades.

The family business expanded further in December 1997 when Dean Harvison started working with Johnny while dating his daughter, Tori. In 2000, Southeastern Contract was rebranded as Appalachian University Systems, commonly known as "AUS."The company underwent another rebranding in 2020 to better align with the market, becoming known as Smarter Furnishings after Johnny Collins, CEO and Partner, joined the team.

Johnny Tipton remained actively involved until late 2006 when health issues began to arise. After months of research and misdiagnoses, he was officially diagnosed with ALS in 2007 and passed away on July 3, 2008. Though he is no longer with us, his legacy and core values still remain.

OUR PROMISE

For over 30 years Smarter Furnishings has been able to provide that **best in class** product and service by specializing in high-quality, durable furnishings designed for student living, backed by a 25-year warranty. We also provide a skilled in-house installation team, ensuring precision and reliability, while our commitment to on-time deliveries keeps your project on schedule.

Choosing Smarter Furnishings for furniture solutions combines exceptional craftsmanship, innovative design, and outstanding customer service—just as we were founded in 1992!

SMARTER **FEATURES**

METAL

Metal is constructed with 16 & 18 gauge steel. Finished with powder coating which provides a tough finish that can withstand harsh conditions. And emits fewer volatile organic compounds (VOCs) compared to traditional paint.

FULLY WELDED

Fully welded steel frame that provide superior strength and integrity.

HIGH PRESSURE LAMINATE

Our product is constructed with HPL which is resistant to scratches, stains, and moisture, making it suitable for high-traffic areas and surfaces that require durability.

R&R FABRIC

The Keystone upholstery collection provides removable and replaceable fabric solutions. This allows the customer to buy the upholstery kit instead of the whole product for cosmetic changes.

R&R CASEGOODS

Our casegoods have removable and replaceable features for on-site adjustments.

SMARTER **FEATURES**

DRAWER CONSTRUCTION

Plywood drawer box designed with dovetail joints at the corners for enhanced durability and a polished finish.

SMARTER DRAWER GLIDES

The Smarter drawer glide is engineered to support a remarkable load-bearing capacity of up to 125 pounds, ensuring reliable performance and stability for your storage needs.

CERTIFICATIONS

All of our furniture complies with current fire safety codes and meets CARB-2 standards. Additionally, we have recently updated our designs to include enhanced anti-tip requirements for improved safety.

FURNITURE GLIDES

All of our furniture is equipped with high-quality non-marring nylon glides, designed to protect your floors from scratches and damage while ensuring smooth and easy movement.
